

POWEROLL 12_s

The **POWEROLL 12** is suitable for all cricket wickets and tennis courts. In common to all Poweroll rollers, this machine has been designed with driver comfort in mind and is pleasurable to drive. Used on sports grounds for play at all levels and abilities. Popular with cricket clubs, colleges, lawn and clay tennis clubs, local authorities, plant hire Companies and Contractors. Useful also for anyone requiring their roller to be moved from site to site, as without ballast, when placed on a suitable 8ft trailer, enables the machine to be transported with-in the 3.5 ton weight limit. The power plant choices are either a Honda petrol or Kubota water-cooled diesel engine. Water ballast may be used in the front and rear rollers and water tanks situated above both rollers and under foot. The front roller is split to minimize ground damage when changing direction. When fully ballasted, this machine will produce ground pressure well in excess of the current I.O.G. suggestions for a heavy roller. This recently re-designed machine has even better visibility close to the machines perimeters to reduce the guesswork to the offside edge of the wicket and assists easier parking in a confined shed, improved further by being 6" shorter than its predecessor.

Features and specifications:

- Rolling width of 36 inch (0.91m).
- Weight 900kg when empty up to 1,780 kg full (+ 30kg for diesel + operator).
- Ground pressure - min. 152kg per 1 ft and max. 296kg per 1 ft of roller.
- Speed range 0 - 6 mph - forward or reverse.
- Comfortable to drive and easy to operate.
- Low maintenance and running costs.
- Hydrostat drive for a smooth, increase of speed without increment.
- No clutch, gearbox or foot pedals - simple hand lever control
- Honda GX 270 engine as standard - Kubota EB300 diesel engine option.
- Machined and radiused edge rollers for optimum results.
- Recently restyled, providing even better visibility close to the machines perimeters.
- For added luxury, now offered with power steering as an extra.

Why fully recondition your old cricket wicket roller when you can part exchange it against this high quality brand new purpose designed machine and save money? Optional extras include: electric start, drip tray, PVC machine cover, sun canopy, roller scrapers, roll over bar.

DON'T JUST ROLL IT - POWEROLL IT!
